Computer Engineering

I'm pursuing Bachelor's Degree in Computer Engineering. I have built a few projects by myself and I'm looking for a role where I can grow and learn from other experienced team members. I'm honest and dedicated person. If I will be selected, I will give my 100% to the company. Thank you !!**Projects that I have built are listed as:**

*** Digital Contractor (Android Application):** This was a major project of last year. We had built a Android App successfully in the group of 4 members.

*** Society of Engineering Student (SOES)/Home Security System:** For upgrading of my knowledge towards programming language, I had built SOES website by myself at Home. During college period (6th semester), integration of both hardware components and programming language, we built a Home Security System project with the group of 4 members.

*** Additional Projects/ Skills: Full-Stack Development (Website and Android Application):**

* Backend Technologies : Java, C, C++, C#, Rest API Using Springboot Framework, Hibernate, Servlet, Unit Test (JUnit, Mockito), JPA, JDBC, Relational Database, SQL, MySql, etc.

* Frontend Technologies : Angular Framework, JavaScript, TypeScript, JSP, HTML, CSS, BootStrap, JSON Data, JQuery, Ajax, etc.

• Software : IntelliJ IDEA, Eclipse Ide, Docker, Android Studio, VS Code, Postman, Postgress, Php-MyAdmin, etc.
